

# International Referee Selection Factors

## 1. Purpose of Document

This document is intended to be used to support the International Referee Allocation and Selection Procedures.

## 2. Selection Factors

The Selectors will take the following information when making selections. Items marked with a \* will be taken from the referee application form and it is therefore the responsibility of the referee to ensure that the form contains the correct and up-to-date information required. British Fencing will provide supplementary information where possible. The order does not dictate priority; it will be the role of the allocators/selectors to take a balanced view.

An indication for each factor, for each selection is marked below (H – high, M – medium, L - low)
